Subject: Sept 7 discussion

I would like to tentatively plan on having the attorney discussion

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

I have confirmed that our attorneys can make it, including John Martin from DOJ, and FWS is still confirming that Shawn Finley and Arlynnell Dickson can attend. Does NOAA have attorneys that can attend?

CONGRATULATIONS! Number two, how exciting!! And May will such a beautiful time of year to have a baby. Would love to hear more about how you are doing, boy or girl?, how is Jeanette taking the news, etc.

I don't think we need to keep this close hold anymore. So please feel free to forward to Karen. I think it would be good way to introduce her to the convo.

Thanks!

Hey Julia!

I will be out on maternity leave beginning in May (slowly making the rounds on telling people this, but it's not a secret, so feel free to mention to others if it's relevant!), and Karen Nelson will likely be doing some backfilling for me while I'm out. I was planning to forward this invite to her to join in, unless you think for some reason we should keep the group small.

Hi Erin – Sorry to be late to this party. I am done. I have flagged some issues for Dallas, Meredith, and Sue. Erin, if you have more guidance on timing, that might help my OGC colleagues, since I know this needs to move quickly. Meredith/Sue, if you don't get to this, I think that's fine too.

Meredith, note that this document says **Ex. 5 AC/AWP/DP** Everything else about ESA is more or less what we say in the preamble already.

Subject: Edits to Roll out and Q and A

Dear Ryland and Lauren,

I see you both are in the Q and A doc reviewing. Thank you! I went through all the questions this morning with Dallas but didn't get a chance to fully clean up the document. Let me know when you are done editing and I will accept as many edits and comments as possible.

Since we are getting short on time if you could focus on items that are factually wrong or raise major red flags that would be great.

Thank you!

-Erin

Awesome! Thanks Lauren! Although, now it looks like I might not actually be able to participate – I've a conflicting meeting with Byron for him to review a couple FOIA things. If I don't need to stick around for that whole meeting, I might be able to just get him started on his review and join the meeting with the services.

Required Attendees: Parsons, Nick; Michaels, Lauren; Korotney, David; Machiele, Paul; Shelby, Michael; Sobel, Aaron; Li, Ryland (Shengzhi); Jessica Mroz (mroz.jessica@epa.gov); Hambright, Rosemary; Borgert, Kyle; Wyborny, Lester; Butler, Aron; Nelson, Karen; Tanner, Daniel; Sharyn Lie; Delity, Akshay

Optional Attendees: Larson, Ben; Burch, Julia; Pastorkovich, Anne-Marie; Weihrauch, John; Gustafson, Kurt; Anderson, Robert; Dubey, Susmita; Bhander, Gurbakhash S.; Caldwell, Robert; Levy, Aaron; Cook, Rich

Shortening this meeting to accommodate a related meeting on ESA. We likely won't have much to discuss this week, but since we cancelled the meeting last week I'm keeping this one as a quick check in.

Agenda for 5.20.21

- We finish up our conversation from last time – any lingering questions (Ex. 5 AC/AWP/DP materials from last meeting attached)
- FWS share their approach to consultation and any specific feedback for projects like RFS
- NMFS share their approach to consultation and any specific feedback for projects like RFS (see slides attached)
- Discuss meeting schedule moving forward
- Anything else?

Optional Attendees: Hambright, Rosemary; Li, Ryland (Shengzhi); Caldwell, Robert

We want to walk the Services through Ex. 5 AC/AWP/DP
Ex. 5 AC/AWP/DP We need to talk through where to start, what to cover at our next meeting with the Services, and what materials we need for that convo. I've attached the 2019 no effects finding so its handy.

I know this time may not work for everyone so if this doesn't work for you please feel free to propose another option.

Thanks!

End: 3/18/2021 1:00:00 PM
Show Time As: Busy

Required Attendees: Machiele, Paul; Burkholder, Dallas; Michaels, Lauren; Manners, Mary; Nelson, Karen

According to Mary, Karen may have more time available in the near future than she had in the past, and thus might be able to help out on the RFS annual standard-setting rule, the Set rule, and/or on ESA consultation. We'll talk about the options and what might make sense.

From: Brett Hartl
Sent: Thursday, August 26, 2021 7:22 PM
To: burch.julia@epa.gov
Subject: Meeting to discuss RFS and endangered species

Ms. Burch,

I was given your name as a person that I could potentially reach out to discuss the EPA's renewable fuel standard. The Center for Biological Diversity has a strong interest in the conservation and protection of endangered species, and we have been very concerned with EPA's dismal approach to protecting this nation's most imperiled species from the impacts of the RFS program on the ground.

I would like to set up a meeting (I assume via Zoom) in the next month if possible to discuss this with you and others within EPA as you deem appropriate. I have a few days of unavailability next month, but otherwise should be able to accommodate your schedule.

Thank you,

Brett Hartl
 Government Affairs Director
 Center *for* Biological Diversity

Optional Attendees: Nelson, Karen

Hello!

As you may know, on Jan 6 EPA and NMFS had a discussion about picking up our TA conversations from a few years ago. At that meeting we decided to start off with a RFS 101 to refresh everyone on the basics of the RFS program and some recent thinking EPA has been doing internally about ESA obligations. Since EPA expects to work with both FWS and NMFS on these issues, it seemed sensible to invite everyone to this next conversation.

Materials attached.

If you have any questions or concerns, please reach out to me.

Thanks!

Regards,

Julia Burch

Subject: Meeting to discuss RFS and endangered species

Ms. Burch,

I was given your name as a person that I could potentially reach out to discuss the EPA's renewable fuel standard. The Center for Biological Diversity has a strong interest in the conservation and protection of endangered species, and we have been very concerned with EPA's dismal approach to protecting this nation's most imperiled species from the impacts of the RFS program on the ground.

I would like to set up a meeting (I assume via Zoom) in the next month if possible to discuss this with you and others within EPA as you deem appropriate. I have a few days of unavailability next month, but otherwise should be able to accommodate your schedule.

Thank you,

Brett Hartl
 Government Affairs Director

I was given your name as a person that I could potentially reach out to discuss the EPA's renewable fuel standard. The Center for Biological Diversity has a strong interest in the conservation and protection of endangered species, and we have been very concerned with EPA's dismal approach to protecting this nation's most imperiled species from the impacts of the RFS program on the ground.

I would like to set up a meeting (I assume via Zoom) in the next month if possible to discuss this with you and others within EPA as you deem appropriate. I have a few days of unavailability next month, but otherwise should be able to accommodate your schedule.

Thank you,

Brett Hartl
 Government Affairs Director
 Center *for* Biological Diversity

From: Brett Hartl
Sent: Thursday, August 26, 2021 7:22 PM
To: burch.julia@epa.gov
Subject: Meeting to discuss RFS and endangered species

Ms. Burch,

I was given your name as a person that I could potentially reach out to discuss the EPA's renewable fuel standard. The Center for Biological Diversity has a strong interest in the conservation and protection of endangered species, and we have been very concerned with EPA's dismal approach to protecting this nation's most imperiled species from the impacts of the RFS program on the ground.

I would like to set up a meeting (I assume via Zoom) in the next month if possible to discuss this with you and others within EPA as you deem appropriate. I have a few days of unavailability next month, but otherwise should be able to accommodate your schedule.

Thank you,

Brett Hartl
 Government Affairs Director
 Center *for* Biological Diversity

We want to walk the Services through **Ex. 5 AC/AWP/DP**
Ex. 5 AC/AWP/DP We need to talk through where to start, what to cover at our next meeting with the Services, and what materials we need for that convo. I've attached the 2019 no effects finding so its handy.

I know this time may not work for everyone so if this doesn't work for you please feel free to propose another option.

Thanks!

Location: Microsoft Teams Meeting

Start: 2/11/2021 6:00:00 PM
End: 2/11/2021 7:00:00 PM
Show Time As: Busy

Required Attendees: Burch, Julia; Dallas Burkholder (burkholder.dallas@epa.gov); Machiele, Paul; Lauren Michaels (Michaels.Lauren@epa.gov); Korotney, David; Li, Ryland (Shengzhi); Hambright, Rosemary; Cathy Tortorici - NOAA Federal; Nancy Brown-Kobil - NOAA Federal; Aubrey, Craig; Keith Paul; Myers, Karen
Optional Attendees: Nelson, Karen

Hello!

As you may know, on Jan 6 EPA and NMFS had a discussion about picking up our TA conversations from a few years ago. At that meeting we decided to start off with a RFS 101 to refresh everyone on the basics of the RFS program and some recent thinking EPA has been doing internally about ESA obligations. Since EPA expects to work with both FWS and NMFS on these issues, it seemed sensible to invite everyone to this next conversation.

Materials attached.

If you have any questions or concerns, please reach out to me.

Thanks!

Regards,

Julia Burch

Subject: GeoPlatform Webinar Series

When: Monday, January 25, 2021 1:00 PM-2:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Microsoft Teams Meeting

2021 Training Schedule

All Webinars will be held on the first and third Monday of each month (unless federal holiday conflicts). When there are two webinars in one day, the first webinar will begin at 1pm ET and end at 2pm ET. Followed by a 5 minute break, the second webinar will begin at 2pm ET and end at 3pm ET. If there is only one webinar, the webinar will begin at 1pm ET. The training [calendar](#) can also be found on the Teams Channel.

Subject: Discuss potential role of Karen in RFS annual rule and/or Set rule
Location: Microsoft Teams Meeting
Start: 3/18/2021 12:30:00 PM
End: 3/18/2021 1:00:00 PM
Show Time As: Busy

Required Attendees: Machiele, Paul; Burkholder, Dallas; Michaels, Lauren; Manners, Mary; Nelson, Karen

According to Mary, Karen may have more time available in the near future than she had in the past, and thus might be able to help out on the RFS annual standard-setting rule, the Set rule, and/or on ESA consultation. We'll talk about the options and what might make sense.

Hello all

Attached is a Chapter 5 of the report that includes [Ex. 5 Deliberative Process (DP)]

I have included the word document to add comments and edits.

Also attached are PDFs with all of the figures and the Appendix A with [Ex. 5 Deliberative Process (DP)]

Let me know if you have any questions.

Pat

Subject: Review of draft reports

As I predicted, I was not able to get to reviewing your draft reports on Friday, and today doesn't look any more promising. If you don't hear from me by the end of the day tomorrow, you can assume I won't be reviewing the documents. Hopefully Lester's comments are sufficient.

Lester and David,

Please see the last draft report before we deliver the final product tomorrow. Given the significance of the reorganization discussed in our last meeting (introduction framing and chapters 1-4 to the appendix) I thought it would be useful for you to take a quick look before we finalize. There are 20ish supplementary figures in pdf form we will also be appending to the document tomorrow.

If you could provide any additional comments by noon EST that should give us some time to address.

Best,
 Jason

The Chapter 6 file as a zipped file has been blocked by our firewall. I think you can rename the zip suffix to a txt file, and when I get it I can rename it as a zip file so that I can then open it.

Alternatively, you can place it into the ICF shared drive.

Subject: Plan for next discussion of consultation on the RFS program

Thanks to all who participated in yesterday's discussion of consultation under ESA on the Renewable Fuel Standard (RFS) program. For the particular issue [REDACTED]

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP I think those of us at EPA now have a better idea of how to proceed.

I had offered to the attorneys that we could use the next regular biweekly meeting (Sept 21 at 1pm) to answer additional questions that they might have. Upon further reflection, I think our time would be better spent going through

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP John Martin was not able to participate in the next meeting anyway. My suggestion is that, if the attorneys did have additional questions [REDACTED]

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP they can circulate them via e-mail and either we can answer them that way or, if the answers are too complicated for that, we can schedule a followup meeting. How does that sound?

Appointment

Subject: A few questions

Hi Dave,

I have a few questions for you.

First, a silly one: do you go by David or Dave? I've heard people call you Dave, but wanted to make sure that is okay. Either is fine. I actually don't even notice when people say versus the other.

Second, I found the Baldwin map on the presentation slides. I've also seen on documents and heard people mention the Lark study or studies. Could you please point me to where I can find those studies? See attached summary put together by Chris Clark at ORD. My paper copy of the original paper is back at the office, and I can't seem to locate an electronic copy. But I can keep digging if you like.

Third, I have been added to the distribution list for the Heavy Duty workgroup as well as their SharePoint site. Since I am also the Policy and Communications Center point of contact for the set rule, could I be added to the workgroup distribution list and sites, assuming they exist? There is no group list for the Set rule workgroup. Instead, I just type in all the names when I want to contact the workgroup. I'll try to remember to include you in the future. Also, there is no Sharepoint site specific to the workgroup (and we don't give them access to the Set rule team's Sharepoint site).

Thank you,

Subject: ESA team meeting tomorrow - prep for 8/24 meeting with services?

Hi David and Julia,

I assume that we will be talking about the 8/24 meeting with the Services tomorrow at our weekly ESA team meeting. Therefore, I went ahead and drafted a tentative agenda to use for our meeting with the Services. I maybe should have checked with you both first about this idea, since you all know better if this would be helpful or not. My thought is that it might help to give folks 'something to react to.' In general, I welcome any thoughts/ideas on how to engage the group and prepare for the meeting with Services.

If helpful, I can also create these agenda on the RFS Team website, somewhere under the "ESA" folder.

Thanks!

Subject: RE: Staffing support for ESA for SET/etc.

I had a short conversation with Bill on this topic this morning, but unfortunately I didn't get clarity on next steps. What I did do was clarify for him a bit more that we are looking for a person to do the work as well as someone to lead it. If by magic they are the same person, great, but otherwise we may be looking for two people – one the person doing the work and another with the process expertise to help guide it.

From Bill's email it sounds like he would like to raise this with the SLT tomorrow and then put it out to the office as a (detail?) opportunity for a week or so. Given this, can one of you take the lead on revising the document to reflect the input he provided and make it clear what it is we would expect this person to do. I like what Julia was saying as well – getting the green light after the position is posted to also reach out to specific people within the division.

So in addition to revising the document, can one of you also draft a draft covernote email that I could send to Bill later today expressing our thoughts on what he should be asking.

Thanks,

Paul

David, thanks for clarifying.

Then, a potential approach could be to describe the project as an opportunity for someone having the skills, or a learning/developmental opportunity for someone to learn new skills if ASD/FC is willing to do that.

Thanks,
Ines

Subject: RE: Staffing support for ESA for SET/etc.

Ines,

Thanks for your thoughts. We'll need to think about it more. But what I can say now is that there is no one already on the RFS team who already has the skills we need. Thus, mentoring someone (a current expert teaching a newbie) isn't much of an option. We are looking for people who already have particular skills because the RFS team doesn't have those skills.

That said, if there are no candidates who have any of the skills we need, we may simply have no choice but to use someone who is willing to help and willing to learn. If that's where we end up, so be it.

Subject: RE: Staffing support for ESA for SET/etc.

Bill – thank you for copying me.

I have a few comments based on what I have heard within OTAQ about detail opportunities and staffing.

- I agree that a short narrative discussing the project should be added (to give some context)
- In addition, I challenge the team to think about what skills would be needed to do the job. In the past, we have tended to ask for 'expertise' in areas versus truly identifying/addressing the 'basic skills' needed to do the job. Are there any basic skills needed and can the candidate gain knowledge/expertise as part of the project versus asking someone to have the 'expertise' from the start? Taking a different approach might generate more candidates to fill this gap. Furthermore, taking a different approach might allow for individuals to develop expertise.
- I know that my suggestion above will need more mentoring/guidance throughout the project, but in the end we might end up providing a real opportunity to staff to develop new expertise that could potentially benefit not only this project, but other projects in the future.

Thanks,
Ines

<storhok.ines@epa.gov>

Subject: RE: Staffing support for ESA for SET/etc.

Paul (and Dave and Julia),

Thank you all for this draft. I set up some time for Paul and I to briefly discuss this morning. I think this is something we should offer within OTAQ first, and Paul and I can talk about how to do that. I can mention this at the SLT meeting on Wednesday or via email to the other Division Directors.

My draft proposal is that I think we should provide ~ a week for OTAQ staff who are interested to first contact their Center Director and then reach out to Paul if they are interested. If that process doesn't result in a candidate, then I think we should go next to the Skills Marketplace/Talent Hub.

My one initial comment is the attached should provide some context for the project (a narrative), and should also discuss the amount of time (e.g., 20% FTE, or whatever it is) and a duration (e.g., next 12 months).

Thanks
Bill

Cc: Korotney, David <korotney.david@epa.gov>; Burch, Julia <Burch.Julia@epa.gov>
Subject: Staffing support for ESA for SET/etc.

Bill,

One of the staffing areas that we discussed before the holidays was our need to bring in some expertise and support to help cover the ESA related responsibilities for the SET rule – and probably other RFS actions over the coming year plus. We probably would have needed support anyway, but now that Julia has a different role, we have an even larger hole to fill.

Dave and Julia put together the attached document that lays out both the work that would likely be entailed, as well as potential roles and responsibilities. Options for filling the hole include tapping someone within ASD, TCD or elsewhere in OTAQ that might have the some of the necessary background/training, advertising and tapping expertise more broadly through Skills Marketplace (limited to 20% of a person's time) and/or advertising a detail in Talent Hub for someone that might have directly applicable experience. I've never dealt with Skills Marketplace or Talent Hub before, but would like to get started on this asap if that's what we're going to pursue. If instead you think we should first reach out across OTAQ, then please advise me on how I can get that process going. We should be involving the new person(s) in our interactions with the Services as soon as possible (we have our first technical assistance meeting with NOAA already today).

Any suggestions on what my next steps should be? I thought that Dave and I had SET coordination meetings with you, but I'm not seeing these on the calendar. Should I set something up for us to discuss?

Paul

Technically, we have not begun to discuss the presence or absence of listed species in the action area because we have not yet defined the project area. Based on that, I don't think Services would view us as having started informal consultation. But we should just ask them.

With regard to your (Julia's) question highlighted in **blue** below, my answer is yes.

Subject: RE: ESA consultation for RFS team meeting

I'll add it to the agenda.

Everything I've read said that if you are talking to the Services but not in formal consultation, then its informal. From the Handbook:

A telephoned or written inquiry about the presence or absence of listed and/or proposed species in a project area usually initiates informal consultation.

3.1 THE INFORMAL CONSULTATION PROCESS

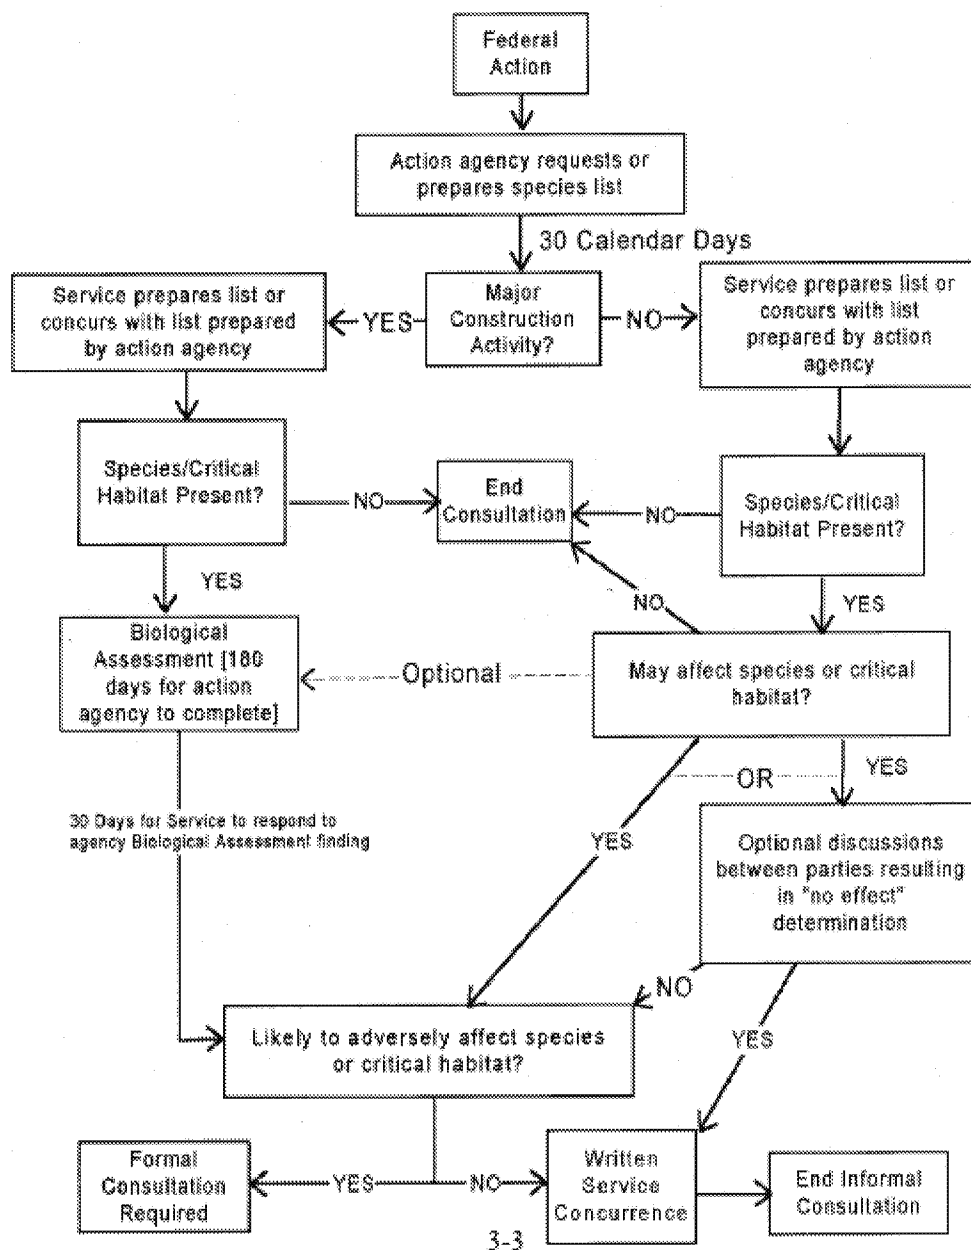

Most consultations are conducted informally with the Federal agency or a designated non-Federal representative. Informal consultations:

- o clarify whether and what listed, proposed, and candidate species or designated or proposed critical habitats may be in the action area;
- o determine what effect the action may have on these species or critical habitats;
- o explore ways to modify the action to reduce or remove adverse effects to the species or critical habitats;
- o determine the need to enter into formal consultation for listed species or designated critical habitats, or conference for proposed species or proposed critical habitats;
- and
- o explore the design or modification of an action to benefit the species.

When used in the context of consultation, the term "informal" suggests an unstructured approach to meeting section 7 requirements. Such consultation includes phone contacts, meetings, conversations, letters, project modifications and concurrences that occur prior to (1) initiation of formal consultation or (2) the Services' concurrence that formal consultation is not necessary. Participation in informal consultation may include (1) the action agency, (2) a designated non-Federal representative, (3) an applicant or permittee, or (4) consultants working on behalf of any of the first three. The informal consultation process may uncover data gaps which may complicate the section 7 analysis. In such situations, additional studies may be necessary to document the species' status in the action area to improve the data base upon which a biological assessment or, if formal consultation is warranted, a biological opinion is developed.

This was on the next page and thought it might be helpful. I know how much we love flow charts in RFS!

Subject: RE: ESA consultation for RFS team meeting

Based on recent conversations with OGC, next Tuesday is probably a good time to start deeply exploring with the Services how **Ex. 5 AC/AWP/DP** This issue directly relates back to the most recent update of

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

Over the weekend please think about what questions we want to ask the Services regarding uncertainty. **By 3pm on Monday**, please send to me any questions that you've come up with. I'd like to send the Services our list of questions by COB on Monday in prep for our Tuesday meeting.

Some questions brainstormed so far (wording not necessarily final):

- What are the pros and cons of an combining an annualized action (like the RVO) together with a longer term action from the same program (like Set) in the context of consultation vs. keeping the two actions separate and independent for consultation?
- As we've mentioned before, there is a long causal chain from RFS standards setting to farmer decisions that could potentially impact listed species. Knowing that you recently updated your regs on causal chain, can you talk about how you view that argument in the context of the RFS? What is the kind of information/analysis that we need to show?

Thanks!

Not quite sure how to respond to Bill's request for % FTE and duration needed. My gut tells me we would need quite a bit more than one person at 20% FTE for 1 year. The list we put together of skills needed and potential roles on the team should have made that obvious. Also, we don't just need a warm body, someone who has some free time and is willing to help. We could of course use such a person, but they would be of considerably less value than someone who actually has the skills we put into our list. Thoughts?

Ines,

Thanks for your thoughts. We'll need to think about it more. But what I can say now is that there is no one already on the RFS team who already has the skills we need. Thus, mentoring someone (a current expert teaching a newbie) isn't much of an option. We are looking for people who already have particular skills because the RFS team doesn't have those skills.

That said, if there are no candidates who have any of the skills we need, we may simply have no choice but to use someone who is willing to help and willing to learn. If that's where we end up, so be it.

Subject: RE: Staffing support for ESA for SET/etc.

Bill – thank you for copying me.

I have a few comments based on what I have heard within OTAQ about detail opportunities and staffing.

- I agree that a short narrative discussing the project should be added (to give some context)
- In addition, I challenge the team to think about what skills would be needed to do the job. In the past, we have tended to ask for 'expertise' in areas versus truly identifying/addressing the 'basic skills' needed to do the job. Are there any basic skills needed and can the candidate gain knowledge/expertise as part of the project versus asking someone to have the 'expertise' from the start? Taking a different approach might generate more candidates to fill this gap. Furthermore, taking a different approach might allow for individuals to develop expertise.
- I know that my suggestion above will need more mentoring/guidance throughout the project, but in the end we might end up providing a real opportunity to staff to develop new expertise that could potentially benefit not only this project, but other projects in the future.

Thanks,
 Ines

Thank you all for this draft. I set up some time for Paul and I to briefly discuss this morning. I think this is something we should offer within OTAQ first, and Paul and I can talk about how to do that. I can mention this at the SLT meeting on Wednesday or via email to the other Division Directors.

My draft proposal is that I think we should provide ~ a week for OTAQ staff who are interested to first contact their Center Director and then reach out to Paul if they are interested. If that process doesn't result in a candidate, then I think we should go next to the Skills Marketplace/Talent Hub.

My one initial comment is the attached should provide some context for the project (a narrative), and should also discuss the amount of time (e.g., 20% FTE, or whatever it is) and a duration (e.g., next 12 months).

Thanks
 Bill

Subject: Staffing support for ESA for SET/etc.

Bill,

One of the staffing areas that we discussed before the holidays was our need to bring in some expertise and support to help cover the ESA related responsibilities for the SET rule – and probably other RFS actions over the coming year plus. We probably would have needed support anyway, but now that Julia has a different role, we have an even larger hole to fill.

Dave and Julia put together the attached document that lays out both the work that would likely be entailed, as well as potential roles and responsibilities. Options for filling the hole include tapping someone within ASD, TCD or elsewhere in OTAQ that might have the some of the necessary background/training, advertising and tapping expertise more broadly through Skills Marketplace (limited to 20% of a person's time) and/or advertising a detail in Talent Hub for someone that might have directly applicable experience. I've never dealt with Skills Marketplace or Talent Hub before, but would like to get started on this asap if that's what we're going to pursue. If instead you think we should first reach out across OTAQ, then please advise me on how I can get that process going. We should be involving the new person(s) in our interactions with the Services as soon as possible (we have our first technical assistance meeting with NOAA already today).

Any suggestions on what my next steps should be? I thought that Dave and I had SET coordination meetings with you, but I'm not seeing these on the calendar. Should I set something up for us to discuss?

Paul

I reviewed the changes in the workplan and I am ready to approve. I compared this version with the first version and I created a redline version of the changes in their most recent workplan draft to help my review and I am sharing it with you. There were a few other changes to fix misspelled words which I did not bother to show in redline.

I would like to send the document to Bill prior to me (or us) talking it through with him – about getting permissions to launch Skills Marketplace or Talent Hub, or wait for internal OTAQ support or...

I tried to clean up the document a little. Its not entirely clear to me how the first 1.5 pages fit with the rest, but I made an attempt to link them. Dave, if you want to clean this up, I'll then forward it to Bill so we can take the next step.

Paul

Good. Glad that was helpful.

I do think that the roles could be combined but as I was thinking it through I did realize that it may be hard to get all of them in one person, such as Lead and Advisor. But anything is possible! Just depends on the person.

I think we would should approach Bill, and maybe Ben, about recruiting. Paul, what do you think?

Subject: RE: Revised - Expertise needed to develop a Biological Assessment

Your additions were very good, and stuff I would not have thought of. Do either of you think we need to identify more precisely which skills already exist somewhere in ASD or OTAQ? Was the next step to have Bill and/or Paul bring this list of needs to the next ASD managers meeting or SLT meeting?

Under "Roles and Responsibilities", I assume that some of the roles could be combined into a single person in theory. For instance, the Lead and Advisor need not necessarily be two different people, right?

Welcome back!

I hope you both had a nice and relaxing holiday break.

Based on our last convo, I added some thoughts about expertise, roles, and responsibilities that we might need for ESA consultation and BA preparation. See attached.

I probably didn't capture everything so feel free to add anything that I missed. If we need to discuss this further let me know.

We have a meeting with NMFS already on the books in Jan and should have something scheduled with FWS soon, so this may get refined based on what we learn in those convos.

Anyway, hopefully this is helpful from a staffing and expertise perspective.

Thanks!

Subject: Next steps with the Services

For our next meeting with the Services, I'm thinking that we should walk through some of our new attribution/market dynamics work and tee up the issue of uncertainty for them. Note that NMFS also offered to walk us through their approach to Sect 7 consultation. Do we want to do that first?

Let me know your thoughts.

Thanks!

Julia/Dave

What are your thoughts? Should we extend for another week?

I received late yesterday a second application from **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Given the responses so far, I'm thinking we may want to try another option of posting an ORISE position for this project. (I've never done an ORISE, but it might work well in this situation.)

Extend?

Paul

Lester and David,

Please see the last draft report before we deliver the final product tomorrow. Given the significance of the reorganization discussed in our last meeting (introduction framing and chapters 1-4 to the appendix) I thought it would be useful for you to take a quick look before we finalize. There are 20ish supplementary figures in pdf form we will also be appending to the document tomorrow.

If you could provide any additional comments by noon EST that should give us some time to address.

Best,
 Jason

The Chapter 6 file as a zipped file has been blocked by our firewall. I think you can rename the zip suffix to a txt file, and when I get it I can rename it as a zip file so that I can then open it.

Alternatively, you can place it into the ICF shared drive.

Hello all

Attached is a Chapter 5 of the report that includes the Ex. 5 Deliberative Process (DP)

I have included the word document to add comments and edits.

Also attached are PDFs with all of the figures and the Appendix A with Ex. 5 Deliberative Process (DP)

Let me know if you have any questions.

Pat

Thanks for asking the question. After discussing it with the ESA team I think we'll try to avoid getting the ICF work peer reviewed – due to resource and various other issues.

Paul

Subject: RE: ACTION: FY2021 Peer Review Data Call - Input Requested by October 20, 2021

I know that we will have to have the ethanol blending cost paper reviewed, and subsequent to that the higher ethanol blends and biodiesel/renewable diesel blending cost writeups.

However, what about the ICF work on Ex. 5 Deliberative Process (DP) endangered species? It is not a final work output since Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) I am asking the question to get us thinking about the need to conduct a peer review sometime during this process.

Subject: ACTION: FY2021 Peer Review Data Call - Input Requested by October 20, 2021

I want to draw your attention to Ruth's message below. There are two aspects of this for you:

- (1) Encourage your staff (who received the email directly, along with you) to work with Ruth to update the information in existing entries by her deadline of Oct 20
 - (2) More importantly, think about new peer reviews for ISI (or other, if we want it entered) we will likely be doing this year and create a Product Entry form.
- Mike Olechiw, you should consider creating a Product Entry form for OMEGA peer review if this wasn't done last year.

I'm happy to talk about whether things you all are thinking of would meet the definition of ISI.

Also, aside from this exercise of Ruth's, we need to document our peer review plan and categorization of technical work products as ISI or other, so will you please keep me informed of your thinking?

We can talk more about this at a Monday management meeting if that would be useful.

Subject: FY2021 Peer Review Data Call - Input Requested by October 20, 2021

Hello All,

This email is relevant to the people who conduct peer reviews; otherwise please ignore.

This note is the annual request for updates for the Science Inventory (peer review) database. Your updates are requested by **Wednesday, October 20, 2021** for:

- Scientific documents, classified as influential scientific information (ISI) or highly influential scientific assessments (HISA), that were peer reviewed in FY2021. The definitions of ISI and HISA are in the attachment.
- ISI or HISA that are planned to be peer reviewed in FY2022
- Other (not ISI or HISA) products or documents that you want to show up in the Science Inventory database, <https://cfpub.epa.gov/si/index.cfm>

Note: Peer-reviewed journal publications are no longer required to be entered into the Science Inventory database. Journal articles and the supporting data follow a separate process to ensure the article and data are made available to the public. Please see the OTAQ@Work page, <https://otagintranet.epa.gov/resources/clearance-staff-authored-journal-articles-and-scientific-presentations>, for guidance on clearance of staff-authored journal articles and scientific presentations.

Please use the spreadsheet ( [Science Inventory Records - OTAQ.xlsx](#)) to review OTAQ work products that are already in the Science Inventory database. To help you navigate in the spreadsheet, the legend to the highlighting:

- Green – record is complete; no further action required; all necessary information and files have been provided; the record will archive two years after the Product Completion Date (Col O)
- Yellow – record is not complete; information is required. There are comments in Column AJ about what information is needed.
- Gray – record has archived (Col E = 'no'); no further action required

To have products added to the Science Inventory database, please complete the 'Product Entry Form.xlsx' ( [Product Entry Form.xlsx](#)) and provide to Jeff Haight and/or me.

Questions? Please contact Jeff Haight or me. Thank you,
Ruth

Subject: RE: ESA support for Set

Hi Bill,

I think you go ahead and send out to the SLT first, and if any discussion is necessary, we can add it to one of our meeting agendas. Once you have made a selection the employee's current supervisor will need to approve the detail, it will be easier to navigate if the other DDs have a heads up this is coming.

I have copied Dan to review as we will need to develop a Position Description for the detail. We should be able to do the first 120-days as an unclassified detail, but for the extensions a full PD will be required. **Dan**, please let us know if you have any concerns with the detail solicitation below, so that it can go out as soon as Bill has concurrence.

Pam

Subject: FW: ESA support for Set

Dear Pam –

We have a project within ASD that we would like to consider asking for an internal detail on – that is, asking across OTAQ if there is a staff person who, after consulting with their manager, would want to spend some of their time working on a specific project.

Below you will see a draft write up from Paul Machiele on this.

Is there a specific process we should follow on this? Should I send this first as a heads-up to the Division Directors, and then Paul can send it to the whole office?

Please let me know your advice on this for how we should proceed.

Thanks
Bill

Subject: ESA support for Set

Bill,

I know your plate has been extremely full recently, so I thought I would try to see if I could move this along.

I turned our prior document into an email format that could be sent out to OTAQ. Can you run this by Sarah/the SLT to get approval for me to send this out across OTAQ? We really need to get moving on this. We have our next technical assistance meeting scheduled with the National Marine Fisheries Service a week from Thursday, and it would be really good if whoever is brought in to support the effort could be on that call.

Thanks,

Paul

Subject: Detail Opportunity to Support the Biological Risk Assessment Needed for Endangered Species Act Compliance for RFS

Where: ASD Fuel Center

When: Beginning ASAP and extending for a year or so

Time Commitment Expected: Variable over time from perhaps 20% on up to full time

Potential Roles

- Primary Analyst
- ESA Consultation Leader

Why: In order to carry out the upcoming rulemaking activity for the renewable fuel standard (RFS) program, the Endangered Species Act (ESA) requires that EPA consult with Services (Fish and Wildlife Service and the National Marine Fisheries Service) prior to taking any action that may affect endangered species or critical habitat. The Renewable Fuel Standard (RFS) program requires increasing volumes of renewable fuel to be used in gasoline and diesel, and some of that renewable fuel is produced from crops which may have land use impacts and thus potential impacts on species and habitats. There are at least two RFS-related actions that might require consultation: annual standard-setting rules for 2021 and 2022, and the Set rule for 2023+.

What: Consultation follows a process described in the Consultation Handbook made available by Services, and requires EPA to submit to Services a detailed Biological Assessment describing how the proposed action could affect species and habitat. The subsequent consultation process then involves a dialogue between EPA and Services about that Assessment which may include additional data gathering and analyses. Consultation culminates in Services producing its own Biological Opinion describing its final conclusions about the impacts of the action on species and habitats. The Biological Opinion may also recommend changes to the action that could mitigate adverse impacts.

Desired Experience/Background for Serving the Primary Analyst Role:

- Must either have experience with developing Biological Assessments or be willing to learn
- Responsibilities would include:
 - Outlining the Biological Assessment
 - Identifying all analyses that must be completed for the Biological Assessment
 - Working with other team members to complete the analyses
 - Writing the Biological Assessment and/or working with other team members to write it
 -
- Experience with endangered species/critical habitat issues
- Experience developing a Biological Assessment to meet ESA requirements
- Experience with a prior consultation process with the services to fulfill ESA obligations.

Desired Experience/Background for Serving the ESA Consultation Leader Role:

- Must either have experience with ESA requirements and the ESA Consultation process or be willing to learn through interacting with the Services.
- Responsibilities would include:
 - Coordinate the consultation process
 - Coordinate the Initiation Package for consultation
 - Coordinate meetings, identify deliverables (project management)
 - Document all steps in the process, including:
 - All interactions between EPA and Services
 - All technical documents used to support decisions
 - Serve as point of contact for:
 - Interactions between EPA and Services
 - Interactions between team and management
 - Internal (OP, OGC, ORD) and external stakeholders

Contacts: If interested or have any questions please contact Paul Machiele, David Korotney and/or Julia Burch

Hi David,

I was invited by Ben to a meeting with him and other new employees. It is taking place at 11, the same time as the set rule team meeting. I was wondering if you could do the ESA update today. I already added some notes to the agenda. As another option, I can call in for the first 5 minutes and do the ESA update and then log off for Ben's meeting.

Thank you,

Tuana Phillips

Hi David and Julia,

I assume that we will be talking about the 8/24 meeting with the Services tomorrow at our weekly ESA team meeting. Therefore, I went ahead and drafted a tentative agenda to use for our meeting with the Services. I maybe should have checked with you both first about this idea, since you all know better if this would be helpful or not. My thought is that it might help to give folks 'something to react to.' In general, I welcome any thoughts/ideas on how to engage the group and prepare for the meeting with Services.

If helpful, I can also create these agenda on the RFS Team website, somewhere under the "ESA" folder.

Thanks!

I want you to cover whatever you think is appropriate to cover.

With regards to the agenda, whichever one of us gets to it first should start a list, and then the other can add to it or edit as seems appropriate. It's not critical that the agenda be spot-on accurate. It's really just a reminder so that we don't forget anything.

Good morning Dave and Julia,

In regards to our ESA meeting tomorrow, is there anything I need to do to prepare for it? Just trying to figure out my role in these weekly Thursday meetings.

Also, Dave—I took a quick look at the outline and drafting assignments and I think it will be really helpful. Will there be time tomorrow, or should we set up another time, to start developing the plan with timeline and milestones for the BE and consultation process?

Ex. 5 AC/AWP/DP

Subject: Plan for the Biological Evaluation

Ex. 5 AC/AWP/DP

The new outline, along with my first guess as to who would draft which parts, is located on the Sharepoint site for the Set rule here:

Ex. 5 AC/AWP/DP

As usual, the outline and the drafting assignments are tentative. We'll discuss it more at our Thursday team meeting.

Also included in this folder is a Word file for each section of the new BE. I will be spending time copying text to the appropriate Section files for the new BE. I may or may not draft other team members to help in this process. But it probably does not make sense for any of you to start drafting text for the new BE until this process is done.

Let me know if you have questions or comments.

To: Phillips, Tuana <phillips.tuana@epa.gov>
Cc: Burch, Julia <Burch.Julia@epa.gov>
Subject: ESA updates at Set rule team meetings

Over the next few weeks, I'd like you to take over updates on ESA and consultation with Services at our regular Set team meetings, Mondays at 11am. Prior to each weekly meeting, please add some updates to the agenda and be prepared to walk through them during the meeting. The agenda is in OneNote on the Sharepoint site for the Set rule:

Documents > Team management > Agenda for weekly Set team meeting

You'll see that there is a separate sheet for each meeting. Generally I try to create the sheet for the next team meeting a few days in advance and then add to it as I think of things to discuss. If you don't see a sheet for the next meeting, you can go ahead and create one.

I'll take a first shot at listing updates on ESA for next Monday Aug 9, and you can add to or change that list as you see fit. For the Aug 16 meeting, I'll just leave it to you.

How does that sound?

Hi David and Julia,

I was looking at the agenda for Monday's (8/9) Set Rule Team meeting and have nothing to add. However, since I will be taking over the meetings with Services, below I pasted the bit of the agenda that talks about Tuesday's meeting and I have a few questions in blue. As a sidenote, Julia if you need any help with drafting/sending the email to the Services, I am happy to work on that. Unless you already did that and I missed it!

Next meeting with Services is tomorrow

Ex. 5 Deliberative Process (DP)

Best,
Tuana

Subject: RE: ESA updates at Set rule team meetings

Hi David,

That all sounds good to me. I'll take a look at what you put down for the Aug 9 meeting and I'll be prepared to fully take over for the Aug 16 meeting. To confirm, will you be going over the updates during the meeting on Aug 9, or should I be prepared to do that?

Best,
Tuana

Subject: ESA updates at Set rule team meetings

Over the next few weeks, I'd like you to take over updates on ESA and consultation with Services at our regular Set team meetings, Mondays at 11am. Prior to each weekly meeting, please add some updates to the agenda and be prepared to walk through them during the meeting. The agenda is in OneNote on the Sharepoint site for the Set rule:

Documents > Team management > Agenda for weekly Set team meeting

You'll see that there is a separate sheet for each meeting. Generally I try to create the sheet for the next team meeting a few days in advance and then add to it as I think of things to discuss. If you don't see a sheet for the next meeting, you can go ahead and create one.

I'll take a first shot at listing updates on ESA for next Monday Aug 9, and you can add to or change that list as you see fit. For the Aug 16 meeting, I'll just leave it to you.

How does that sound?

Bill,

Dave just asked me about the status of your conversations with the SLT on this, but I couldn't recall what you may or may not have passed on to me last week. Can you remind me/let Dave know what the next step might be and if there is something we can do to get the ball rolling.

Thanks,

Paul

Subject: Staffing support for ESA for SET/etc.

Bill,

One of the staffing areas that we discussed before the holidays was our need to bring in some expertise and support to help cover the ESA related responsibilities for the SET rule – and probably other RFS actions over the coming year plus. We probably would have needed support anyway, but now that Julia has a different role, we have an even larger hole to fill.

Dave and Julia put together the attached document that lays out both the work that would likely be entailed, as well as potential roles and responsibilities. Options for filling the hole include tapping someone within ASD, TCD or elsewhere in OTAQ that might have some of the necessary background/training, advertising and tapping expertise more broadly through Skills Marketplace (limited to 20% of a person's time) and/or advertising a detail in Talent Hub for someone that might have directly applicable experience. I've never dealt with Skills Marketplace or Talent Hub before, but would like to get started on this asap if that's what we're going to pursue. If instead you think we should first reach out across OTAQ, then please advise me on how I can get that process going. We should be involving the new person(s) in our interactions with the Services as soon as possible (we have our first technical assistance meeting with NOAA already today).

Any suggestions on what my next steps should be? I thought that Dave and I had SET coordination meetings with you, but I'm not seeing these on the calendar. Should I set something up for us to discuss?

Paul

Subject: RE: ESA Consulation Team needs writeup

Thanks Dave,

Pretty good job for taking a shot in the dark. I just tweaked it slightly. Since Bill wanted to bring it up at his SLT meeting tomorrow to start the discussion of soliciting potential interest from elsewhere in OTAQ, I'm copying Bill and Ines on this reply so he has this latest iteration (link below) to work from. FYI Bill, Julia suggested that in your conversation with the SLT we also get the green light to reach out to and talk to staff in other divisions, as she is aware of people that may have the technical background/training for this, but might not feel free to respond to any general email solicitation that we may send out.

Subject: ESA Consulation Team needs writeup

I did a substantial rewrite to try and make it look more like a job opening description. It is located on Sharepoint [here](#).

I was a bit frustrated in putting this together as I really had no idea what sort of FTE we need nor exactly how to identify the roles we need. I really just wanted us to be able to say that we need enough people to cover the list of skills/experience we identified, rather than identifying specific roles, but oh well.

In the end I decided to only specify the total FTE needed for the team, not for each member. But even then it was a total guess.

I also did not identify a role for every skill (e.g. we need one person who is a GIS expert, and another person who is an endangered species expert, and another person that is an ESA expert, etc). Instead, I just identified two specific roles: Team Lead and Primary Analyst, and then added one line that says we may need more people if those two don't cover all the needed skills. I don't like it, but I didn't know what else to do, so hack away.

Subject: RE: Staffing support for ESA for SET/etc.

I had a short conversation with Bill on this topic this morning, but unfortunately I didn't get clarity on next steps. What I did do was clarify for him a bit more that we are looking for a person to do the work as well as someone to lead it. If by magic they are the same person, great, but otherwise we may be looking for two people – one the person doing the work and another with the process expertise to help guide it.

From Bill's email it sounds like he would like to raise this with the SLT tomorrow and then put it out to the office as a (detail?) opportunity for a week or so. Given this, can one of you take the lead on revising the document to reflect the input he provided and make it clear what it is we would expect this person to do. I like what Julia was saying as well – getting the green light after the position is posted to also reach out to specific people within the division.

So in addition to revising the document, can one of you also draft a draft covernote email that I could send to Bill later today expressing our thoughts on what he should be asking.

Thanks,

Paul

David, thanks for clarifying.

Then, a potential approach could be to describe the project as an opportunity for someone having the skills, or a learning/developmental opportunity for someone to learn new skills if ASD/FC is willing to do that.

Thanks,
Ines

Subject: RE: Staffing support for ESA for SET/etc.

Ines,

Thanks for your thoughts. We'll need to think about it more. But what I can say now is that there is no one already on the RFS team who already has the skills we need. Thus, mentoring someone (a current expert teaching a newbie) isn't much of an option. We are looking for people who already have particular skills because the RFS team doesn't have those skills.

That said, if there are no candidates who have any of the skills we need, we may simply have no choice but to use someone who is willing to help and willing to learn. If that's where we end up, so be it.

Subject: RE: Staffing support for ESA for SET/etc.

Bill – thank you for copying me.

I have a few comments based on what I have heard within OTAQ about detail opportunities and staffing.

- I agree that a short narrative discussing the project should be added (to give some context)
- In addition, I challenge the team to think about what skills would be needed to do the job. In the past, we have tended to ask for 'expertise' in areas versus truly identifying/addressing the 'basic skills' needed to do the job. Are there any basic skills needed and can the candidate gain knowledge/expertise as part of the project versus asking someone to have the 'expertise' from the start? Taking a different approach might generate more candidates to fill this gap. Furthermore, taking a different approach might allow for individuals to develop expertise.
- I know that my suggestion above will need more mentoring/guidance throughout the project, but in the end we might end up providing a real opportunity to staff to develop new expertise that could potentially benefit not only this project, but other projects in the future.

Thanks,
Ines

Subject: RE: Staffing support for ESA for SET/etc.

Paul (and Dave and Julia),

Thank you all for this draft. I set up some time for Paul and I to briefly discuss this morning. I think this is something we should offer within OTAQ first, and Paul and I can talk about how to do that. I can mention this at the SLT meeting on Wednesday or via email to the other Division Directors.

My draft proposal is that I think we should provide ~ a week for OTAQ staff who are interested to first contact their Center Director and then reach out to Paul if they are interested. If that process doesn't result in a candidate, then I think we should go next to the Skills Marketplace/Talent Hub.

My one initial comment is the attached should provide some context for the project (a narrative), and should also discuss the amount of time (e.g., 20% FTE, or whatever it is) and a duration (e.g., next 12 months).

Thanks
Bill

Subject: RE: ESA consultation for RFS team meeting

I'll add it to the agenda.

Everything I've read said that if you are talking to the Services but not in formal consultation, then its informal. From the Handbook:

A telephoned or written inquiry about the presence or absence of listed and/or proposed species in a project area usually initiates informal consultation.

3.1 THE INFORMAL CONSULTATION PROCESS

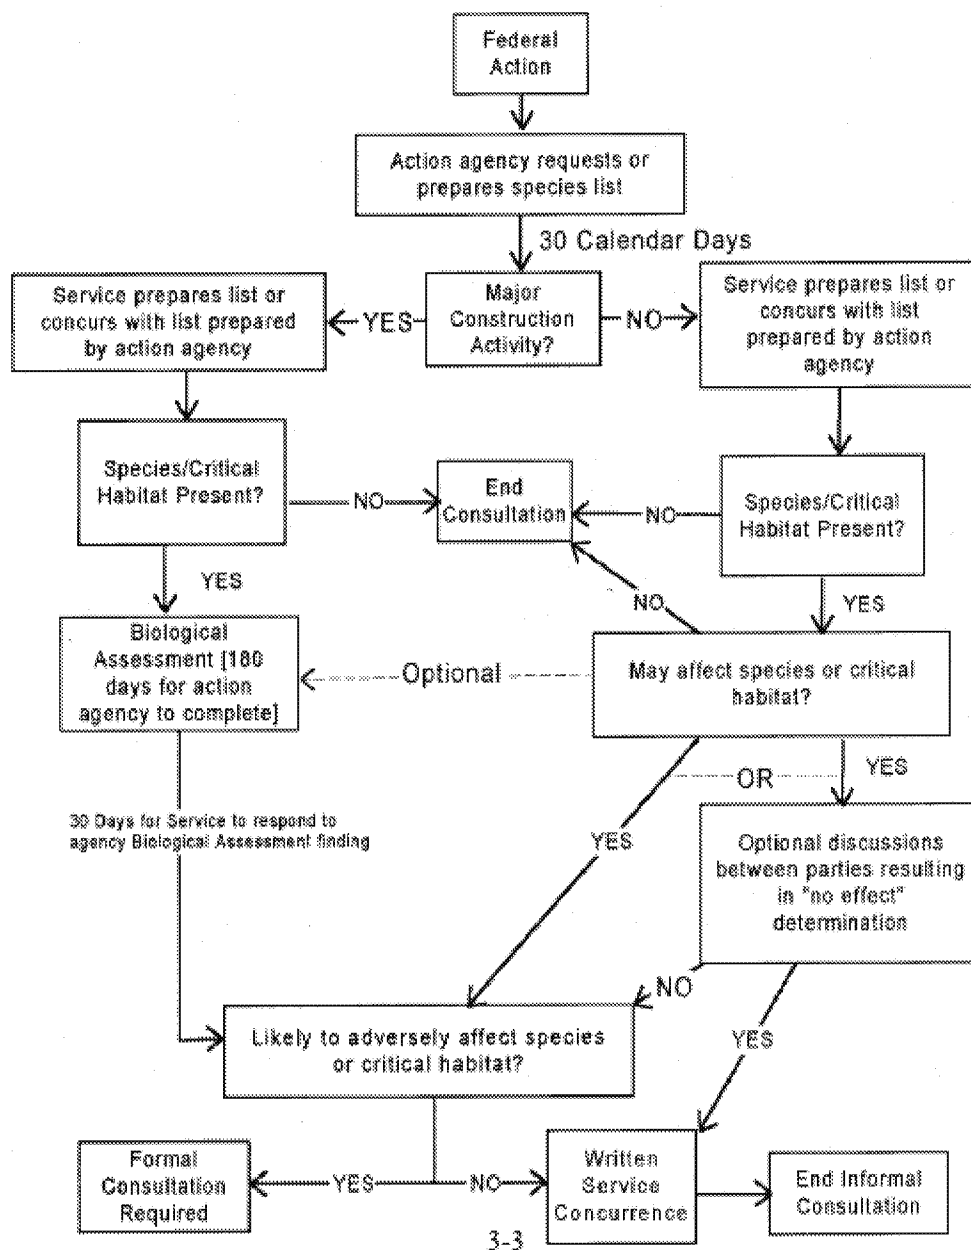

Most consultations are conducted informally with the Federal agency or a designated non-Federal representative. Informal consultations:

- o clarify whether and what listed, proposed, and candidate species or designated or proposed critical habitats may be in the action area;
- o determine what effect the action may have on these species or critical habitats;
- o explore ways to modify the action to reduce or remove adverse effects to the species or critical habitats;
- o determine the need to enter into formal consultation for listed species or designated critical habitats, or conference for proposed species or proposed critical habitats;
- and
- o explore the design or modification of an action to benefit the species.

When used in the context of consultation, the term "informal" suggests an unstructured approach to meeting section 7 requirements. Such consultation includes phone contacts, meetings, conversations, letters, project modifications and concurrences that occur prior to (1) initiation of formal consultation or (2) the Services' concurrence that formal consultation is not necessary. Participation in informal consultation may include (1) the action agency, (2) a designated non-Federal representative, (3) an applicant or permittee, or (4) consultants working on behalf of any of the first three. The informal consultation process may uncover data gaps which may complicate the section 7 analysis. In such situations, additional studies may be necessary to document the species' status in the action area to improve the data base upon which a biological assessment or, if formal consultation is warranted, a biological opinion is developed.

This was on the next page and thought it might be helpful. I know how much we love flow charts in RFS!

Subject: RE: ESA consultation for RFS team meeting

Here are a few more:

What would EPA need to submit to Services if we were to begin with informal consultation, and how would it differ from a Biological Assessment that would be required under formal consultation?

Cc: Nelson, Karen; Butler, Aron; Burch, Julia; Delity, Akshay; Miller, Meredith; Machiele, Paul; Valderrama, Cristina

Subject: ESA consultation for RFS team meeting

When: Thursday, June 24, 2021 9:30 AM-10:00 AM (UTC-05:00) Eastern Time (US & Canada).

Where: Microsoft Teams Meeting

I'm setting up a standing weekly meeting for the ESA consultation team, even though I don't yet know who is a member of the team. Raj and Bob are definite Yes. I think Aron is Yes. Karen, I included you as cc: because the issues with ESA consultation overlap the other issues you were going to be helping out with (ecosystems, wildlife habitat, wetlands, etc), but I'm leaving your attendance to your judgment. Julia, I cc'd you just for fun.

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

Here's a first shot at a standing agenda:

Status of discussions with Services, where the previous meeting with them ended up, plans for the next meeting with them

Status of ICF contract to

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

Ex. 5 AC/AWP/DP

Volume scenarios for 2021 - 2022 (annual rule) and **Ex. 5 AC/AWP/DP** Set rule)

Ex. 5 AC/AWP/DP

What analyses can we be doing now that will supplement the ICF contract?

Outlining the Biological Assessment & identifying data/analysis gaps

**Expertise needed to develop a Biological Assessment
of the Impacts of RFS Volume Requirements on Endangered Species and Critical Habitat**

Potential Analytical Areas of Knowledge/Work

1. Level of the RFS volume requirements
 - a. For each year 2021+
 - b. For each of the four applicable categories
 - i. Cellulosic biofuel
 - ii. Biomass-based diesel
 - iii. Advanced biofuel
 - iv. Total renewable fuel
2. Projected impact of the RFS volume requirements on actual supply of biofuel
 - a. Volumes of each type of biofuel
 - b. Feedstocks used to make each biofuel type
 - c. Domestic production versus imports
 - d. Impacts of small refiner exemptions, the carryover RIN bank, gasoline & diesel demand, etc.
3. Location of crops grown for production of biofuel
 - a. GIS mapping
 - b. **Ex. 5 Deliberative Process (DP)**
 - c.
 - d. Historical location of each crop type
 - e. **Ex. 5 Deliberative Process (DP)**
 - f. Conservation reserve program (CRP) policies, locations, and any associated data sets
 - g. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

6. ESA consultation process and procedures
7. ESA terms and requirements

Other Potential Roles and Responsibilities (beyond staff analyst)

Lead for the ESA consultation process (could be from within OTAQ or a detailee from another EPA office via Talent Hub)

- Coordinate consultation process
 - Familiar with ESA obligations, policies, and processes
- Coordinate development of the Biological Assessment and Initiation Package
 - Components and contents; SMEs; analysis
- POC for all interactions between EPA and Services
- Coordinate meetings, identify deliverables (project management)
- Document all steps in the process
 - All interactions between EPA and Services
 - All technical documents used to support decisions
- POC for interactions between team and management
- POC for internal (OP, OGC, ORD) and external stakeholders

Advisor (this could be someone from OGC or another EPA office; could probably be done though Skills Marketplace with 20% of a persons time rather than a detail via Talent Hub)

- Experience working with the Services
 - Understand process and perspectives
 - Has contacts at Services and across EPA
- Experience in consultation process
 - Advise on how to have a smooth and timely consultation
 - Effective Biological Assessment
- Understand what kinds of expertise are needed for successful project
- Familiarity with legal issues associated with ESA and/or RFS (may need separate legal expert(s))

GIS/LUC expert (could be contractor or detailee from another EPA office via Talent Hub or maybe USDA)

- Has experience using ArcGIS and other mapping software
- Familiar with land use and crop data sets (NRI, Census, etc)
- Familiar with listed species and critical habitat data sets
- Experience building geospatial datasets from other types of data
- Expertise in land use change analysis and research
- Familiar with LUC models (GREET, GCAM, FAPRI, etc)

Wildlife Ecologist (will this be provided by the Services? Do we need someone in house? If so, maybe detailee from another EPA office via Talent Hub or USDA or DOI; maybe could be satisfied at 20% via Skills Marketplace depending on level of engagement by Services)

- Expertise in listed species and critical habitats of specific concern to RFS
 - Ranges

- Threats
 - Populations
 - Recovery plans
 - Mitigation strategies
 - Mortality stats
 - Sensitivity to human activities
 - Behavior
- Experience working with listed species data sets

RFS expert (provided by OTAQ)

- Deep knowledge of RFS program, policies, requirements, history
- Familiar with RFS data sets
- Familiar with RFS stakeholders
- Participates in ongoing RFS implementation

Unclassified Duties for Environmental Protection Specialist (Endangered Species Act requirements for the Renewable Fuels Standards Program)

- Coordinate the development of the Biological Assessment in preparation for consultation for the Renewable Fuels Standards Program to meet our obligations under the Endangered Species Act (ESA)
- Identify, organize, implement, and describe analyses needed for the Biological Assessment, which characterizes the impacts of RFS biofuel mandates on endangered species and critical habitat
- Work with other RFS team members to identify and complete the analyses, including identifying and filling analytical gaps
- Write the Biological Assessment and/or work with other team members to write it
- Conduct meetings and other interactions with the National Fish and Wildlife Service and National Marine Fisheries Service (the Services) in order to meet obligations under ESA
- Develop the Initiation Package for consultation
- Coordinate with other experts across EPA and the Services to determine and carryout consultation requirements
- Lead meetings, identify deliverables, keep records, ensure quality (project management)
- Create official record of process by documenting all steps in the process, including:
 - All interactions between EPA and Services
 - All technical documents used to support decisions
- Serve as the lead for:
 - Interactions between EPA and Services
 - Interactions between team and management
 - Internal (OP, OGC, ORD) and external stakeholders

Julia/Dave

What are your thoughts? Should we extend for another week?

I received late yesterday a second application from

Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

Given the responses so far, I'm thinking we may want to try another option of posting an ORISE position for this project. (I've never done an ORISE, but it might work well in this situation.)

Extend?

Paul

Subject: Your opportunity has been published

Greetings from Talent Hub,

Thank you for publishing the following opportunity: [Environmental Protection Specialist to carry out Endangered Species Act requirements for the Renewable Fuels Standards Program.](#)

This is a courtesy notification that your opportunity has been published to Talent Hub and is currently available to applicants. The notification will go out later this evening to all those whose profile matches criteria detailed in the announcement.

As the Hiring Manager, you and the POC can quickly find the announcement under "Opportunities I've Posted" in [My Stuff](#). To review applications for your project, go to the announcement and scroll to the bottom to see all those who've applied.

If you need to edit your announcement (e.g. extend the deadline), please do so prior to the Application Deadline. Once that date has passed, to revise your announcement you will need to "duplicate" the original, make necessary edits and republish. These steps and other important processes are further explained in the Talent Hub [User Guide](#).

Thank you for using Talent Hub to help make EPA a better workplace!

[The Talent Hub Team](#)

Title: Detail Opportunity for GS-13 Environmental Protection Specialist to Carry Out Endangered Species Act Requirements for the Renewable Fuel Standard Program (I chose to be descriptive instead of just say where it is located)

Office/Region: OAR

Office/Division/Branch/Section: Office of Air and Radiation, Assessment and Standards Division, Fuel Center

Position Status: Active

Published: 2/18/2021

Position Summary: Duties and Responsibilities

- Carry out the Biological Assessment for the Renewable Fuel Standard Program to meet our obligations under the Endangered Species Act (ESA)
 - Identify analyses that must be completed for the Biological Assessment which characterize the impacts of RFS biofuel mandates on endangered species and critical habitat
 - Work with other RFS team members to complete the analyses
 - Write the Biological Assessment and/or work with other team members to write it
- Conduct a consultation process with the National Fish and Wildlife Service and National Marine Fisheries Service (the Services) to meet our obligations under ESA
 - Develop the Initiation Package for consultation
 - Coordinate with other experts across EPA and the Services to determine and carryout consultation requirements
 - Lead meetings, identify deliverables (project management)
 - Document all steps in the process, including:
 - All interactions between EPA and Services
 - All technical documents used to support decisions
- Serve as the lead for:
 - Interactions between EPA and Services
 - Interactions between team and management
 - Internal (OP, OGC, ORD) and external stakeholders

Objectives: The Endangered Species Act (ESA) requires that EPA consult with Services (Fish and Wildlife Service and the National Marine Fisheries Service) prior to taking any action that may affect endangered species or critical habitat.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) Consultation follows a process described in the Consultation Handbook made available by Services and requires EPA to submit to Services a detailed Biological Assessment describing how the proposed action could affect species and habitat. The subsequent consultation process then involves a dialogue between EPA and Services about that Assessment which may include additional data gathering and analyses. Consultation culminates in Services producing its own Biological Opinion describing its final conclusions about the impacts of the action on species and

habitats. The Biological Opinion may also recommend changes to the action that could mitigate adverse impacts.

Number of Vacancies: 1

Appointment Type: Competitive Service

Commented [KD1]: Isn't this a detail? Competitive service refers more to a permanent position

Series: 0028 What's this?

Commented [KD2]: This refers to the job series. 0028 is the series for EPS. I don't think you want to narrow this down to just one series, correct?

Work Types: Environmental Analysis, Document drafting, Project management, Policy analysis

Pay Grade: GS-13

Commented [KD3]: Is this only open to GS-13?

Temporary Promotion?: No

Application Deadline: 3/4/21

Position Start Date: 3/21/21

Commented [KD4]: I would change this to 3/28/2021 based on the processing schedule with RTP-SSC.

Duration: 120 days What's the longest?

Commented [KD5]: 120 days is the longest but can be renewed in 120 day increments. I've seen details go like this for a year and beyond. **Ex. 6 Personal Privacy (PP)**

Possible Extension?: Yes

Duty Station: Washington, DC or Ann Arbor MI

Eligibility: All HQ ??

Commented [KD6]: OAR-wide or EPA-wide?

Required Skills: Experience with endangered species/critical habitat issues, Experience with a prior consultation process with the services to fulfill ESA obligations, Oral Communication, Problem Solving, Project Management, Teamwork, Written Communication

Optional Skills: Required Proficiencies

Technical proficiencies required to perform the duties and responsibilities of the detail such as experience developing a Biological Assessment to meet ESA requirements, GIS Analysis, and use assessments, etc.

Require Resume?: Yes

Required Documents/Additional Info: Cover letter preferred.

Who is paying for this position?: Gaining Office I assume??

Commented [KD7]: Yes, ASD

Non-Local Candidates Considered?: No

Commented [KD8]: ?? I thought you wanted to post this broader?

Temp Relocation Expenses Paid?: No

Hiring Manager: Machiele, Paul

Announcement Point of Contact: ??Is this also me. Is it Dan Kloc??

Dan,

I copied that posting into a word file, and then modified it based on our internal posting. My draft is attached to this email. There are several things that I took a guess at and a few others that I don't know and could use your help/guidance on that I've highlighted in yellow. Please take a look at it. Once we've sorted this out, then either you or I could copy it into Talent Hub tomorrow. I'm in meetings almost solid from 9am on, so if you're willing and able, I would appreciate it.

I've also copied Julia Burch and David Korotney on this for their review of the content. Its mostly cut and pasted into this new format from what we had before, but its probably worth it for them to look at it.

Edit as y'all see fit.

Paul

Good Morning, Paul, David, and Julia,

Yesterday was an interesting meeting to learn about the RFS program. I have also read the document that Dallas presented. This document mainly focuses on **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

I know that we are waiting for directions from our management. But I want to discuss and outline our preliminary goals and prioritize the area of interest. Then, I will focus on the high-priority areas and will update our analysis data.

I have attached a couple of slides with some information. Please feel free to add our critical goal.

Are you available to discuss our goal today or next week? I will be

Subject: RE: Info Request for Detail to ASD/FC

Actually... I heard back from Dan Kloc (even though he is on CDO today), and he indicated that this action has to be initiated, sent to RTP, and processed, which goes by the normal processing schedule. So he would have to get it into RTP-SSC by 3/26/2021 for it to be officially effective by 4/11/2021 at the earliest.

David and Lester,

I wanted to reach out and say thanks for working with our team to finalize the report. I have been working in the biofuels land use change sphere for a while now and as I mentioned in some of our meetings I think there is a real usefulness to parts of this analysis to other across OTAQ and in other agencies. If you guys ever want to reconvene to discuss these ideas and options to expand this work please don't hesitate.

It was a good time working with you guys, not a long time!

Thanks,
 Jason

Lester and David,

Please see the last draft report before we deliver the final product tomorrow. Given the significance of the reorganization discussed in our last meeting (introduction framing and chapters 1-4 to the appendix) I thought it would be useful for you to take a quick look before we finalize. There are 20ish supplementary figures in pdf form we will also be appending to the document tomorrow.

If you could provide any additional comments by noon EST that should give us some time to address.

Best,
Jason

The Chapter 6 file as a zipped file has been blocked by our firewall. I think you can rename the zip suffix to a txt file, and when I get it I can rename it as a zip file so that I can then open it.

Alternatively, you can place it into the ICF shared drive.

Thanks Lester, I have made the change (see attached) and the new work plan will be submitted through Fedconnect soon. Have a great weekend.

Thanks
 Jeff

We reviewed the workplan and everything looks good except for a criteria I suggested be added for Ex. 5 Deliberative Process (DP).
Ex. 5 Deliberative Process (DP) I asked that a criteria be added, but I placed the comment in the wrong place. The following criteria should be added to the first list for considering Ex. 5 Deliberative Process (DP).
Ex. 5 Deliberative Process (DP) Please make that change and we can approve the workplan.

Ex. 5 Deliberative Process (DP)

Thanks!

Lester

Hi Lester and David,

Attached is the updated Work Plan. I will let our team know the work plan needs to be resubmitted

Thanks,
 Jeff

Please don't forget to email us the revised work assignment. Also, please do resubmit it through Fedconnect as none of us can seem to find it in EAS.

Thanks!

Lester

I reviewed the changes in the workplan and I am ready to approve. I compared this version with the first version and I created a redline version of the changes in their most recent workplan draft to help my review and I am sharing it with you. There were a few other changes to fix misspelled words which I did not bother to show in redline.

Lester

<!--[if lte mso 15 || CheckWebRef]-->

Machiele, Paul has shared a OneDrive for Business file with you. To view it, click the link below.

Expertise needed to develop a Biological Assessment+jb+pm.docx

<!--[endif]-->

I would like to send the document to Bill prior to me (or us) talking it through with him – about getting permissions to launch Skills Marketplace or Talent Hub, or wait for internal OTAQ support or...

I tried to clean up the document a little. Its not entirely clear to me how the first 1.5 pages fit with the rest, but I made an attempt to link them. Dave, if you want to clean this up, I'll then forward it to Bill so we can take the next step.

Paul

Good. Glad that was helpful.

I do think that the roles could be combined but as I was thinking it through I did realize that it may be hard to get all of them in one person, such as Lead and Advisor. But anything is possible! Just depends on the person.

I think we would should approach Bill, and maybe Ben, about recruiting. Paul, what do you think?

From: Korotney, David <korotney.david@epa.gov>

To: Burch, Julia <Burch.Julia@epa.gov>; Machiele, Paul <machiele.paul@epa.gov>
Subject: RE: Revised - Expertise needed to develop a Biological Assessment

Your additions were very good, and stuff I would not have thought of. Do either of you think we need to identify more precisely which skills already exist somewhere in ASD or OTAQ? Was the next step to have Bill and/or Paul bring this list of needs to the next ASD managers meeting or SLT meeting?

Under "Roles and Responsibilities", I assume that some of the roles could be combined into a single person in theory. For instance, the Lead and Advisor need not necessarily be two different people, right?

Subject: Revised - Expertise needed to develop a Biological Assessment

Welcome back!

I hope you both had a nice and relaxing holiday break.

Based on our last convo, I added some thoughts about expertise, roles, and responsibilities that we might need for ESA consultation and BA preparation. See attached.

I probably didn't capture everything so feel free to add anything that I missed. If we need to discuss this further let me know.

We have a meeting with NMFS already on the books in Jan and should have something scheduled with FWS soon, so this may get refined based on what we learn in those convos.

Anyway, hopefully this is helpful from a staffing and expertise perspective.

Thanks!
